

EvoComNet 2016

The track on "*Application of Nature-inspired Techniques for Communication Networks and other Parallel and Distributed Systems*" part of the **EvoStar 2016 EvoApplications Conference** featuring a fast-track option for **Applied Soft Computing** journal (2014 Impact Factor 2.810).

EvoStar 2016

The Leading European Event on Bio-Inspired Computation
Porto, Portugal - 30 March - 1 April 2016

Dear Colleague,

we would like to inform you of the forthcoming 13th edition of the "Application of Nature-inspired Techniques for Communication Networks and other Parallel and Distributed Systems" (EvoCOMNET), to be held in Porto, Portugal, 30 March - 1 April 2016 as a part of EvoStar 2016 EvoApplications Conference.

This year's edition is technically sponsored by the World Federation on Soft Computing www.softcomputing.org.

Accepted papers will appear in the proceedings of EvoApplications, published in a volume of the Springer Lecture Notes in Computer Science by Springer.

Deadline

**Nov. 1,
2015**

Furthermore, a selection of the best accepted papers, suitably revised and extended, will be eligible for fast-track publication in Applied Soft Computing journal by Elsevier, thanks to the technical sponsorship offered by the World Federation on Soft Computing.

SCOPE AND TOPICS OF INTEREST

Papers relevant to EvoCOMNET should show the application of Evolutionary Computation techniques, or of hybrid methods containing evolutionary issues, to the solution of real-world problems in fields where a network, be it physical or logical, is present.

Examples of such fields include, among others:

- o communication systems
- o sensor networks
- o mobile networks
- o graphs
- o parallel and distributed optimization algorithms
- o network-based computing systems and related management activities
- o grid and cloud computing
- o transportation
- o supply
- o logistics
- o traffic
- o financial network systems

More detailed information, together with a more comprehensive list of application domains, is available at www.evostar.org

IMPORTANT DATES

Submission deadline: November 1, 2015.

Notification: January 4, 2016

Camera-ready: January 18, 2016

We do hope you will find this event of interest to highlight your latest research.

Yours sincerely,

Ivanoe De Falco
Antonio Della Cioppa
Ernesto Tarantino
