3 – 5 April 2024

evostar*

The Leading European Event on Bio-Inspired Computation

www.evostar.org

evostar* comprises four co-located conferences run each spring at different locations throughout Europe. These events arose out of workshops originally developed by EvoNet, the Network of Excellence in Evolutionary Computing, established by the Information Societies Technology Programme of the European Commission, and they represent a continuity of research collaboration stretching back over 20 years.

evostar* is organised by SPECIES, the Society for the Promotion of Evolutionary Computation in Europe and its Surroundings. This non-profit academic society is committed to promoting evolutionary algorithmic thinking, with the inspiration of parallel algorithms derived from natural processes. It provides a forum for information and exchange.

The four conferences include:

eurogp*
27th European Conference
on Genetic Programming
www.evostar.org/2024/eurogp

evoapplications*
27th European Conference
on the Applications of Evolutionary
and bio-inspired Computation
www.evostar.org/2024/evoapps

evocop*
24th European Conference on
Evolutionary Computation in
Combinatorial Optimisation
www.evostar.org/2024/evocop

evomusart*
13th International Conference
(and 17th European event)
on Artificial Intelligence in Music,
Sound, Art and Design.
